FEAR FOR LIVES OF 52 ON MISSING LAKE VESSEL

Attempt Made To Wreck Hoover Train

TWO ARRESTED BY OPERATIVES OF GOVERNMENT

Secret Service Men Are
Holding "Cranks" In
Indiana

BARE OTHER PLOT TO KILL PRESIDENT

Negroes Caught Placing
Auto On Track In
Front of Train

Washington, Oct. 24.—Attempts to wreck the train bringing President Hoover from Louisville, Ky., to Washington were reported to the United States secret service today.

Joseph Murphy, assistant chief of the secret service, said two men are under arrest at New Albany, Ind., for "interfering with the train."

Murphy said this was all the message said. He doesn't know the method used to wreck the presidential special; whether interfering with the car wheels or tearing up or placing obstructions on the tracks.

"The men are arrested out there, all right, and I am awaiting more information," Murphy said.

Secretary Speaks.

Lawrence Richey, presidential secretary, said at the White House all he knew was what Murphy told him. He said:

"Murphy told me it looked merely like a pair of cranks who tried to do something they couldn't do and that it didn't amount to anything. Murphy is going to tell me the facts when he receives them from New Albany."

Mr. Hoover is enroute back to the capital from his first long journey from the White House since his inauguration.

He left Sunday to be at Dearborn, Mich., to attend the Golden Jubilee of the invention of the incandescent light by Thomas A. Edison, elaborately staged by Henry Ford.

Then he attended the celebration of the opening of the Ohio river by riding a side-wheeled steamer down the river from Cincinnati to Louisville.

After addressing the river folk at Louisville last night he boarded a special train for a speedy trip to Washington.

Made At New Albany

The attempt to wreck his train to New Albany and probably kill or injure him is the second made upon him since he took over the presidency.

Several months ago a woman from Frederick, Md., visited the anteroom to his White House office and tried in vain to see him.

Secret service operatives noted she acted queer and humored her, permitting her to remain in the room under the surveillance and telling her "they were doing their best to get the president to see her."

As the hours passed she left.

Two days later this same woman pulled out a pistol in the Frederick court and leveled it at the judge. A sheriff sitting beside her, seized the pistol before she could pull the trigger.

Newspaper accounts of the Frederick episode identified the woman as one who had been so persistent in trying to reach the president.

They believed she had a pistol in her pocketbook when she sat in the White House anteroom. She was committed to a sanitarium for treatment.

New Albany, Ind., Oct. 24.—Two negroes were arrested here today and were lodged in the county jail by department of justice agents who said they caught them in the act of placing an old automobile on the Pennsylvania tracks at Sidney crossing, east of here, just a few minutes before the special train or President Hoover was due to come along.

The prisoners gave their names as Young E. Wright, 45, and Charles W. Bullock, 19, both of Jeffersonville, Ind.

In signed confessions to John M. Mailey, department of justice operative of Louisville, Ky. The men were said to have explained they wanted the car wrecked so they could collect insurance on it. They said they didn't know anything about the presidential special train being due.

Honor Herrick

Washington, Oct. 24.—The Rue Saint Quentin in Havre, France, has been changed to the Rue Maréchal T. Herrick, in honor of the late American ambassador to France, according to the National Geographic Society.

Montana Airman Missing In Flight Across The Atlantic

URBAN F. DITEMAN, JR., and his low wing Baring monoplane in which he attempted to span the Atlantic are shown above. No word has been received of the intrepid aviator since his unannounced

hop from Harbor Grace, Newfoundland. The plane, which had only the barest equipment for ocean navigation carried 165 gallons of gasoline, this fuel supply was exhausted many hours ago.

ENGINEER REQUESTED TO AIR WATER ISSUE

Civic Organizations Want
Barkhoff to Explain
Points Raised

Six Salem civic organizations united today to request City Engineer F. S. Barkhoff to give to the public all information available in the engineering department on questions raised on the proposed Butler water project.

These organizations are the Quota club, Rotary club, Kiwanis club, Salem Business bureau, American Legion and Manufacturers association.

While the engineer has spoken to several groups on the water issue, many phases have developed which require explanations such as only an engineer could give. The organizations interested feel that Barkhoff might not desire to take the initiative as an individual in analyzing the whole situation unless requested to do so.

With this in mind, and with the realization that Barkhoff has studied the water proposition more than any other individual in the city, the six organizations today made the request, through The News, that he answer the questions brought up and explain any other phase of the issue of which he may have engineering knowledge.

These organizations are the Quota club, Rotary club, Kiwanis club, Salem Business bureau, American Legion and Manufacturers association.

COUNTY AUDITOR TO DISCUSS TAX PROBLEM OCT. 30

Water Project Also Will
Be Discussed at This
Public Meeting

County Auditor E. E. Walker will discuss the proposed tax amendment to the state constitution at a public meeting to be held Wednesday night, Oct. 30, at the Memorial building.

Arrangements for this meeting have just been completed by a committee of which B. L. Flick is chairman. The present uniform rule of taxation was placed in the state constitution in 1851. Under it all kinds of property, whether it be real estate, household furniture, stocks and bonds, money on deposit, farm machinery live stock, are taxed at the same rate.

This system it is proposed to change and the tax limit amendment will be on the ballots at the Nov. 5 election. The county auditor will explain the inequalities of the present system and the benefits of the proposed amendment.

Following this talk on tax matters an open forum will be conducted on the city water project. City Engineer F. S. Barkhoff has agreed to explain any points that may be submitted in writing before or at the meeting.

SALEM RESIDENT
FINED BY JUDGE

Lisbon, Oct. 24.—Fred Howell of Salem, withdrew his former plea of not guilty and entered a plea of guilty when given a hearing before Judge Probate Lodge Riddle and was fined \$100 and costs on charge of possession and \$100 on selling intoxicating liquor.

Frank Hall, also of Salem, withdrew his former plea of not guilty and entered a plea of guilty to a charge of selling and possession and was fined \$200 and costs.

Final date for a hearing in the case of Steve Cosgrove, arrested last Saturday night by Sheriff W. J. Barlow, on a charge of possession, has not been determined by Judge Riddle.

Killed In Mine

Blaine, O., Oct. 24.—Mike Zornety, a youth, was killed and his father was injured by a stone fall in the Blaine mine of the Lorain Coal & Dock Co., here today.

County Authorities
To Quiz Death

Akron, Oct. 24.—County authorities here took steps today to reopen the investigation of the death of Charles Walter Chandler, 45, prominent Summit county farmer and dairyman whose body, weighted with paving bricks, was found in a pond near his home at Darrowville last June 8.

Assistant County Prosecutor G. R. Hargreaves, who has made a detailed investigation of the case, will recommend that the body be exhumed for additional examination and pathological tests of the vital organs in an effort to definitely determine whether Chandler committed suicide or was murdered.

Salem Students To Enjoy Holiday

Friday will be a free day for more than 2,000 Salem school students when teachers and principals of the seven public schools attend the annual Northeastern Ohio Teachers' conference at Cleveland.

Salem teachers will leave for Cleveland early tomorrow morning and will attend the conference both Friday and Saturday.

Two persons were believed to be missing in the debris.

Tells of Blast

Miss Annette Anderson, also a victim of burns, accounted for the fire explosion in a store room not far from the polishing machine she was operating. The blast set fire to a quantity of negatives.

Some of the films lost were irreplaceable, according to studio executives.

Among the master negatives reported were those of "The Rita," "Untamed," "Seven Keys to Baldpate," "The Taming of the Shrew," "Hell's Angels," "Hallelujah" and others.

"Untamed" was the first co-starring picture of Douglas Fairbanks and Mary Pickford.

The second explosion unroofed the laboratory, spreading the fire, as the release of inflammable gases sent the flames high in the air.

The torch of fire threw a weird glow over Hollywood as chemicals stored in the building colored the flames with an auroral light.

Until the raging inferno of chemicals and films had died down, firemen could do nothing except prevent the spread of the fire to nearby structures.

They helped lead women and girl employees out of the building while choking fumes sent many gasping from the nearby streets. Several persons were slightly injured by the acid gases.

The loss in master negatives could not be estimated until producing companies check their studio records, according to William Lebaron, vice president of R. K. O.

Donation Day For
Aged Women's Home

The annual Donation day for the Home for Aged Women will be held next Thursday, Oct. 31.

Each year many Salem residents interested in the work of the home donate canned goods, vegetables, money and household supplies which help to maintain the institution at its high standard.

This year the donations may be left at the room east of the First National bank.

King Winter Makes Debut In
Salem; Weather Report Cheers

Mr. and Mrs. Salem and little Salemites were awakened this morning by unusually vicious shaking of the furnace, glanced out of the windows, saw snow, then buttoned up overcoats before trekking to factory, office or school.

The thermometer touched 34.8 degrees in Columbus last night and it will be slightly colder tonight, according to the official prognosticator.

Storms in the northern section are sweeping eastward up the St. Lawrence river valley today, leaving in their wake a cold spell.

Football adherents throughout the state need have no fear of inclement weather Saturday, according to the indications now. The temperatures may be between 40 and 50 degrees, but fair weather and cloudless skies are promised.

VALUABLE FILM LOST IN BLAZE AT HOLLYWOOD

Master Negatives of Big
Productions Destroyed
In Fire

PLACE LOSS AT
NEAR \$6,000,000

One Life Lost; Others
Critically Burned Dur-
ing Blaze

Hollywood, Oct. 24.—One man was killed and a half dozen other persons were injured in a \$6,000,000 laboratory fire that was quelled early today after a five hour battle.

Fire in a film negative stock room of the Consolidated Film Laboratories, Inc., shortly after midnight, caused an explosion that swept the plant with flames.

Al Lund, a mechanic, was suffocated by the fumes of burning chemicals after he had striven to halt the fire.

Lund, 35, staggered into the street and collapsed. He was dead when a fire department rescue squad took him to a hospital.

Mrs. Irene Beardsley, Glendale, Cal., was rescued by firemen so badly burned she may die.

J. G. Nieman, whose heroic rescue of 20 girl workers, trapped in the fire swept halls, made him the outstanding hero of the fire, was critically burned.

Two persons were believed to be missing in the debris.

Transient Will Be Guest For Week

Prospects of being forced to wait in city jail until Mayor Phil Hiddleston's return to the city faced John Sheardon, a transient, arrested last night on a charge of suspicion.

Hiddleston left the city Tuesday morning without leaving word of his destination and placing no one in charge of the mayor's office during his absence, according to officials at city hall. He will be gone a week, Police Chief T. W. Thompson reports.

Sheardon was apprehended by Patrolman Jesse Gray and Wilbur Hiddleston late last night after reports were made to police that he was loitering about a gasoline filling station located at Lisbon rd., railroad crossing. He was lodged in city jail where he will be forced to stay until Hiddleston's return. Chief Thompson stated this morning.

ATLANTIC HOLDS
SECRET OF LONE
AVIATOR'S FATE

No Word From Diteman
Or Tiny Craft He
Used In Trip

WIFE STILL HAS
SAFETY HOPES

Builders Say Airplane
Could Remain Afloat
For Some Time

New York, Oct. 24.—The grim Atlantic today held fast the fate of Urban E. Diteman, Jr., the Billings (Mont.) cattle man who dared its wide expanse in a tiny open monoplane Tuesday and hasn't been sighted since.

As the hours passed, anxiety for the giant six-footer who left Harbor Grace, N. F., at 12:15 p. m. Tuesday as a man on a casual that he would be back in a few days, changed to a desperate hope that he would be back in a few days.

One ray of hope pierced the gloom which followed the failure of any ship or any coastal community of the British Isles to sight him.

A dispatch from Copenhagen stating that Diteman had ordered 600 litres of gasoline placed at his disposal at Julianhaab Greenland, two months ago, gave rise to hopes that the daring westerner had changed his course and headed for that place instead of straight across the Atlantic.

Wife Still Confident

But his wife, who with her two young sons, is still confident that Diteman will turn up safely some place, punctured this hope by stating that although it was her husband's original intention to fly to Europe, he was of Greenland, he had determined upon a direct non-stop flight a few days before hopping off.

In the note he left behind, Diteman himself estimated that his gas supply of 165 gallons would carry him to London in about 25 hours with an adequate margin of safety.

But this morning more than 18 hours over that estimate had passed, without news. Builders of his plane, the smallest ever to be used in a trans-Atlantic attempt, stated that his 771 pound craft could easily remain afloat a number of hours if he were forced down.

Diteman carried no radio and thus was unable to communicate with any of the numerous ships strung across the Atlantic on his course.

There is always the outside chance, however, that the gallant solo flyer was picked up by a trawler without radio apparatus.

Clemenceau Suffers
Sudden Relapse

Paris, Oct. 24.—M. Georges Clemenceau, war-time premier of France who recovered miraculously from a severe heart attack early this week, suffered a relapse today.

The "Tiger" found difficulty breathing in the early hours of the night, and later his condition became so aggravated for a considerable period he experienced choking sensations.

Oxygen was administered through a tube to give relief.

Wooster Man Shot

Wooster, O., Oct. 24.—Henry Shelly, 50, is in a serious condition in a local hospital today from a gun shot wound in the back which was inflicted by one of two men after they had asked for road directions and ordered Shelly to "stick 'em up."

BURDEN BALANCED

The cumbersome phraseology of taxation laws ordinarily makes dry reading. With this in mind proponents of the Tax Limit Amendment, to be voted upon November 6, have gone the length and breadth of Ohio with a clear, concise, graphic analysis of Ohio's antiquated Uniform Rule.

The job has been well done and in the final stages of this most intelligent campaign one may assume that Ohio voters, regardless of the outcome on election day, will have profited by an understanding of the state's taxation system and its need of remedy.

As a whole the state is tax conscious. If the amendment is defeated, which we trust will not be the case, it will be because the subject is not properly understood by enough voters. And if it is not properly understood it will not be the fault of the speakers, the writers and the experts who have endeavored to clarify the issue. It will simply be because enough voters will not take the trouble to understand.

For 78 years Ohio has had what is known as Uniform Rule in the taxation of all moneys, credits, investments in bonds, stocks, joint stock companies, or otherwise, and also all real and personal property according to its true value in money. Real property is land and improvements thereon. Personal property is all property other than land and improvements. Tangible personal property is personal property which can be seen and is not easily concealed such as farm machinery and equipment, livestock, stores of grain and farm products, stocks of goods, manufacturing machinery and equipment, raw materials, office equipment and supplies, automobiles, furniture, wearing apparel, jewelry, musical instruments, and so forth. Intangible personal property is personal property which can be easily concealed. It includes shares of stock, bonds and other securities, money, mortgages, notes, bills, accounts receivable.

The proponents of the Amendment hold that Ohio the fourth state in the Union in population and wealth, has been hampered for 78 years by Uniform Rule. In 1851 the state's wealth was largely in land and improvements, the value of which could easily be computed and which could not be hidden. This land was classified and the home owner burdened with a higher tax than the large owner of real estate and the speculator. The Uniform Rule was placed in the constitution to correct the taxation of land and improvements.

In 1851 the state had a population of 1,989,329; at that time the manufactured products were valued at \$62,692,279; today the population has increased to 6,300,000, or 245 per cent, and the manufactured products to \$5,230,323,268, an increase of more than 7,400 per cent. With this change from pioneer to modern conditions, Ohio's tax law has become more and more impractical and unfair. This fact has been recognized for 40 years and during that time the question of revising this section of the constitution has been submitted to the people ten times. Five of these times it actually carried but was technically defeated. In these ten submissions 3,447,478 votes were cast in favor of the various amendments and 3,134,949 votes were cast against it.

The Tax Limit Amendment now submitted is an agreed draft approved by sixteen great, state-wide, tax-paying organizations and accepted by hundreds of leaders in every walk of life. It is endorsed by farm, mercantile, manufacturing, financial, commercial, real estate and journalistic enterprises. It is fair and impartial.

On the ballot the question is submitted thus:

Shall Article XII, Section 2 of the Constitution of the State of Ohio be amended and Article XII, Section 3 of the Constitution of the State of Ohio be repealed so as to provide for a more flexible system of taxation for the state and to protect

property against excessive taxation according to value? The Amendment gives the legislature the opportunity to do these things:

Tax different kinds of property justly. Do away with double taxation which is impossible as long as the Uniform Rule remains. Limit taxation to a rate no greater than 15 mills, with no deviation from this unless the people of the taxing districts vote a greater rate of taxation. Land and improvements thereon will be taxed uniformly.

Safeguard the home, farm and business of Ohio by placing a tax limit in the Constitution where today there is no limit or protection.

Dr. William Oxley Thompson, president emeritus of Ohio State university, strikes as clearly at the heart of the problem as any speaker thus far. Beyond the fact that the Amendment will equalize the burden on farmers and city dwellers, he argues that the existing Uniform Rule is a definite moral risk and advocates the Amendment for the sake of civic honesty.

"The Uniform Rule creates false standards and false values," Dr. Thompson remarks. "It says that all forms of property shall be assessed for taxation at their true value in money at a uniform rate, and so lays down a principle which few people in Ohio are willing to recognize or to follow."

Dr. Thompson recalls that when the Uniform Rule was written, Ohio was an agricultural state. All property was visible and easily placed on the tax duplicate by the assessors. Now, he maintains, fifteen billion dollars worth of intangible wealth escapes all taxation and is evading civic duty because it cannot honestly afford to pay the great tax burden imposed upon it by the Uniform Rule.

He brings us to the inevitable conclusion that the Uniform Rule definitely encourages, and almost necessitates, deliberate tax evasion. Theoretically, it might be possible for the legislature to devise some means of "smoking out" intangible property and getting at least a considerable portion of it on the tax list. Practically no legislature has been willing to adopt the inquisitorial methods necessary to that end, probably because of fear that the intangible property forced upon the tax list would be less than that driven out of the state and that resulting conditions would be worse than those now existing.

Editorial Quips

A restaurant in Honolulu makes a specialty of a native dish, humuhumunukunuaakapua. A sort of pig, is our guess.—Detroit News.

Mr. Ford, refusing to make automobiles in a wet country, no doubt will move his factory from Detroit to Westerville.—Cincinnati Enquirer.

The squirrels, if any are left, can now settle down to another year of peace and watch the wild ducks and rabbits get it.—Dayton Journal.

There is only one thing for a man to do who is married to a woman who enjoys spending money. And that is to enjoy earning it.—Aitchison Globe.

Women simply don't wear old silk stockings. At any rate, we never heard of a woman tearing a silk stocking that wasn't brand new.—Kansas City Star.

What the farmer demands is a tariff bill under which the term "cash wheat" will mean he can raise more cash and less wheat.—Chicago Herald and Examiner.

The old-fashioned girl could sit down without showing it, but the modern girl with a bruise above one of her knees has to cover it with a bandage.—New Orleans States.

The Stars Say—

For Friday, Oct. 25

By GENEVIEVE KEMBLE

A most interesting and eventful year may be expected, judging by the exciting lunar directions. While the employment is in jeopardy, yet this may be the presaged abrupt change that makes way for more progressive and productive channels. Radical change, travel, new undertakings and lively and happy period from propitious stars. The auguries will move rapidly into fresh and constructive channels. Shipwreck, cavalcade and small losses.

Those whose birthday it is are on the eve of a very important and progressive year, despite the probability of losing their employment. This may make way for fresh fields of enterprise, new environment and probably very happy personal affections.

A child born on this day may be splendidly equipped for large or unusual enterprises, born of its own initiative and fine constructive abilities. Whereas it might have trouble with employers, it may make signal success on its own account. It may move about much in its adventures.

HEALTH

By Dr. Royal S. Copeland

Perhaps there is no more common symptom than pain in the eyes. It may be constant or fleeting. It may be an ache, a grumbling sensation, or it may be an acute and cutting pain.

Pain may be the only symptom, but sometimes there may be redness of the lids or eyeball. There may be swelling or drooping of the lids or they may stick together.

The pain may be in the eyes, or over the eyes, or around the eyes. It may shoot into the temples, or up over the head. Sometimes the pain takes the form of a headache.

Perhaps the most common is eye strain. This may be due to the excessive use of a pair of normal eyes, or it may come from the need of glasses.

In the eye are a number of muscles. One of them is the focusing muscle. Its function is to regulate the thickness and focusing power of the lens of the eye. If you are past 45, or are older still, and have had no new glasses for a long time, this muscle is overworked. Naturally it gets tired, and pain in the eyes or headache is the result.

Reading in deficient light is harmful. Reading while you are lying down with your neck bent forward is another cause for trouble. It is just as damaging to read in the glare of the sun, or in an undue amount of artificial light.

Pain in the eyes may be a symptom of intestinal indigestion. Dyspepsia of a chronic nature may be evidenced by pain in any part of the body. Intestinal poisons attack many of the tissues including the eye.

There are certain methods of treatment which will promote your comfort if you are thus afflicted. Hot applications are very useful. These may take the form of moist applications. For instance, you may dip a towel or a big piece of flannel in water, hot as can be borne. Place this over the eyes and forehead, covering it with a dry cloth. As soon as this application cools a bit dip it again in the hot water.

A bag of hot salt, a hot water bag or an electric bag may be employed. Any such method of applying heat will be helpful.

Under no circumstances use a poultice on the eyes. Many a sore eye has been ruined by the use of a poultice. Capsicum ointment or menthol may be applied to the temples and hot compresses put on afterward. This form of counter-irritation may relieve the suffering.

When the doctor comes he will prescribe certain eye drops and other medication. Recurring eye pain demands examination of the eyes and search for the underlying cause.

Answers to Health Queries

M. A. H. Q.—What causes hardening of the arteries?
A.—This is caused by excessive use of alcohol, tobacco and coffee, by overeating, by aphylis, by bad teeth, etc. For full particulars, kindly send a self addressed, stamped envelope and restate your question.

MARIA Q.—How can I gain weight?
A.—Eat plenty of good nourishing food, including milk, eggs, fresh hours of sleep, exercise daily in the fruits and vegetables. Get regular fresh air. Take cod liver oil as a general tonic.

Q.—What causes canker sores in the mouth?
A.—Hyperacidity is generally the cause. Avoid excessive sweets and acid-producing foods and keep the system clear.

Twenty Years Ago

(Issue of Oct. 24, 1909)

Nearly every prominent man in Youngstown is a member of the automobile club, and the organization plans some big improvements in practically every branch of the sport for next year.

Charles E. Reynolds, Norfolk, Va., arrived in the city Saturday to spend a week with his parents, Mr. and Mrs. S. M. Reynolds, Fourth st.

Mrs. Maude Snowden, Philadelphia, is spending a week with her niece, Mrs. L. H. Brush, Lincoln ave.

Malloning county has now 60 miles of improved roads, macadam and brick built at a cost of \$820,000. Seven miles of brick road was built this year.

Lisbon—The National Sewer Pipe company, has begun extensive improvements on its local plant which will double the output. Six new kilns will be built at once and the older ones remodeled.

Chicken thieves got 10 pullets from the coop of P. A. O'Connor, Elm st., Saturday night.

Funeral service for Robert T. Curtis, Sr., was held at the home, Ellsworth ave., Sunday afternoon. Rev. O. A. Simpson officiated.

Among the delegates appointed by Gov. Harmon to represent the different counties at the Farmers convention, which will be held in Raleigh, N. C., next week, is S. H. Armstrong of Salem.

There are now over 33,000 men employed in government dockyards in England.

Owing to the good corn crop the price of whiskey has been reduced two cents a gallon.

Mrs. H. W. Ford, of California, who has been a guest for several weeks in the home of Wallace Mounts, this city, started west Sunday evening.

AN OUTSTANDING EVENT ON THIS STORE'S CALENDAR FOR OCTOBER

Sale of Well Known

BLANKETS

Friday and Saturday

For You — An Economy Event with No Risk of Reduced Quality — For These Blankets Represent Quality Unexcelled

An Extra Heavy Double Bed Size
COTTON BLANKET

Large size, priced especially for this event. Choice of all the most wanted colors. 70x-80 inches. Pair, only

\$2.95

IF YOU THINK—

You do not need blankets now — but will need them later — select blankets now at these prices and use our lay-away plan. Make a payment to hold them, we will deliver them to you when you are ready.

WEARWELL BLANKETS

WOVEN OF THE FINEST MATERIALS

TRUE, CLEAN COLORS

70 x 80 Strictly
ALL WOOL BLANKETS

All wool warp and filling. Sateen bound. Beautiful range of colors, as follows: Orchid, gray, black, peach, rose, green, red, blue. Pair

\$10.50

100% VIRGIN WOOL BLANKETS

Woven very fine and has soft silky finish. "Melbourne" quality. Pair

\$12.50

Wool and Camel's Hair

66 x 80 BLANKETS

Beautiful shade of tan with brown border. Sateen bound. Only six pairs to be sold at this price.

Stock Exchange In Turmoil When Prices Break

TICKER RUNS WELL BEHIND TRADE VOLUME

Trading At Terrific Clip During Early Part Of Day

IMPORTANT STOCKS IN MARKED FALL

Excitement In Wall St. Intense As Crash Occurs

New York, Oct. 24.—Another break in prices threw the New York stock exchange into a turmoil today, coming as it did on the heels of a crash in values in the final hour of trading yesterday.

Trading was at a terrific clip. At the outset, big bankers and bullish interests bought stocks in 10,000 and 20,000 blocks in a desperate attempt to restore normalcy to the wild market, but this support did not long hold up prices.

From all over the country came orders to "sell." And shortly before noon the market began to tumble. United States steel dropped to 29 1/2, down six points from the high of the morning; radio sold off 8 points from last night's close to 63 1/2; General Electric was down 6 points at 31 1/2 and Columbia graphophone was down 6 points at 33 1/2.

The greatest excitement—and in some circles consternation—prevailed.

New York, Oct. 24.—The total market value of the \$3,900,000,000 outstanding shares of General Motors Corporation has shrunk approximately \$1,750,000,000 since January as the result of a 40-point drop in prices since that time. Stock of General Motors sold today under \$9 against 91 3/4 in January.

valued. Brokers shouted and speculated as they milled about the trading posts on the exchange.

Ticker Lags Behind
Shortly before noon the ticker was chugging forty-five minutes behind in report sales—so heavy was trading.

During the wave of selling, General Motors declined to 50, the lowest price of that stock in its present form, and a drop of 40 points from its high of last January.

Further hysterical selling sent radio down to 47. This was a 21-point drop for the day. Earlier in the year radio sold at 114 3/4.

Announcement came at noon that trading was suspended in Grigsby, Grunow, a radio stock.

Excitement at this hour was intense. Practically every broker in Wall street was battling madly for the floor of the exchange.

In the midst of the excitement rumors spread that the officials of the New York stock exchange were calling a meeting for the purpose of closing the exchange. This rumor was promptly denied to International News Service.

Trading was proceeding violently. Up to noon 5,711,290 shares had been dealt in—the biggest two-hour volume in the history of the stock market.

"Never saw anything like it!" brokers exclaimed excitedly to each other.

Mantanzas, Cuba—Just as Dr. Georges Claude, French scientist, was about to begin his experiment for generating power from the Gulf stream, a broken pipe caused the loss of \$130,000 and fourteen months work was washed away.

Dr. C. Jeff Miller of New Orleans, who is president-elect of the American College of Surgeons, which recently concluded its annual meeting in Chicago, Ill. Dr. Miller will take office in 1930. He will succeed Dr. Merritt W. Ireland, surgeon-general of the United States Army. Dr. Miller, who has been practicing medicine in New Orleans for the past 35 years, has been professor of gynecology at Tulane University for the past 18 years and has long been recognized as one of the foremost international authorities in his chosen field.

Italian Prince Unhurt By Assassin's Bullet

Brussels, Oct. 24.—An unsuccessful attempt to assassinate Crown Prince Umberto of Italy was made here today.

The crown prince, whose engagement to the Belgian Princess Marie Jose was formally announced yesterday, was attending ceremonies at the tomb of the unknown soldier when an unidentified man, wildly brandishing a revolver, fired several shots at the distinguished visitor but missed him.

A momentary panic followed. The solemn scene became an uproar as the police made a mad dash for the would-be assassin.

But the prince remained calm and an audible sigh of relief went up from those about the tomb when it was apparent that he had not been hit and that a catastrophe which might have had far-reaching consequences had been averted.

The prince, accompanied by the Italian ambassador, had just stepped from his automobile before the tomb when a shot rang out within four yards of him.

Burgomaster Max, who was waiting to receive the prince immediately jumped in front of him but the aim of the would-be assassin was bad and neither was hit.

A police inspector in civilian clothes pounced upon the man brandishing the revolver and disarmed him.

The crowd, however, mistook the policeman for the man who fired the revolver and he was badly battered by many fists before the mistake was discovered.

The band struck up the Italian national anthem to quiet the crowd while officials stood in a circle about the prince, who had not moved an inch from his original position.

FATHER SLAYS FOUR CHILDREN; TURNS ON GAS

Mother, One Child Still Alive; Recovery Possible

CORONER BLAMES MAN FOR ACT

Police Searching For Murderer Who Leaves Explanatory Note

Hamilton, O., Oct. 24.—Their lives claimed by gas, which, Coroner Edward C. Cook says, had been turned on by their father in a murder attempt, four little children are dead here today and their mother and another child are fighting for their lives in a hospital, where, doctors said, they will probably die.

Charles King, Sr., 36, a barber the father and husband, is being sought by police and the coroner said he would be charged with murder when captured.

Authorities at Coldwater, Mercer county, where the family recently resided, have been notified as it is believed King may have fled to friends there for shelter from the far-reaching arm of the law.

Four Are Dead

The four dead are Keith, 5; Paul, 10; Leon, 12; and Robert, 14. Mrs. Sarah King, the mother, and a fifth child, Charles, Jr., 6, are seriously ill in the hospital and will probably succumb.

The tragedy occurred in the family's rented five-room modest frame dwelling here. The bodies and the two victims were found when a neighbor Edward Osborne, 21, detected the odor of gas and broke into the house.

He found the mother and Charles, Jr., lying on the floor in a downstairs room. The bodies of the four children were found in their beds upstairs.

Police were immediately summoned and they found that the top of a gas pipe had been taken off, allowing the fumes to filter through the entire dwelling. Coroner Cook declared that the cap on the pipe could not have fallen off or been knocked off accidentally.

Leaves Note

Authorities strengthened their suspicion of murder when an unsigned note, which was said to be in the handwriting of the husband and father, was found. It read:

"To the law: I did this because I had to. I was poor but happy. Some want to part us. I have insurance to pay expenses. Don't look for me. I leave you with Ethel and the boys."

Ethel was the middle name of his wife. The insurance which he alluded to, were small policies he had taken out last month.

The note named three Coldwater men, who he alleged, goaded him until he was forced to "take the only way out." The names of the trio were not disclosed and, it is believed, police will question them, though they are inclined to believe that the men had nothing to do with the murders.

A further search disclosed that King had not fled in his automobile. It was found parked beside the house. Authorities hope that he may be hiding some place within the county.

According to police, they found a suit of clothes and a bottle which was half filled with alleged morphine whiskey in the machine.

A guard was posted at the bedside of the mother and child in the hospital and they will be questioned as soon as they regain consciousness.

Meanwhile, the police hunt for the father is being pushed. Kentucky and Indiana authorities have been notified as well as the police in all adjoining counties.

Money is so close and yet so far

State To Construct Wider Highways As Traffic Grows

It has been announced that the policy of the State Highway Department now is to make 20-foot highways out of many hundreds of miles of 16-foot roads before much more money is spent on super highways near large cities.

With one or two exceptions all new highways either built or now under construction in Columbiana county are 20-foot roads, the lone exception this year being the 16-foot concrete road between Elkton and the intersection of the East Liverpool-Youngstown road.

The only slag road built in Columbiana county this year was the Lisbon-Columbiana road, and the slag is now being placed on this highway, and it will be but a short time, it is said until this road will be given a permanent top.

With the steady increase in motor traffic, it has been pointed out by the State Highway Department that new highways must be 20 feet in width or wider.

There are but two main highways in the county now improved with "one-way" brick traffic lanes, these being a section of the Wells-Salineville road in Yellow Creek township and the Lisbon-Salineville road in Center township.

It is only a question of time until these narrow brick roads will be widened to a width of 20 feet, it is said.

Both of these roads were built many years ago and long before motor traffic became heavy.

—

David McClain and sister, Mrs. R. Sutton and children, Mary and Harry, East Brady, Pa., are visiting at the home of Mrs. Margaret Engle, Park st., and other relatives here.

—

Mrs. Webb M. Samuel of Cleveland, formerly of Salem, concluded a visit with Miss Judith Brooks Highland ave., Thursday morning.

Mrs. Lorena E. Whitney has completed a three months course at the Westmore school of beauty culture in Youngstown.

—

R. S. Byers, Lincoln ave., was a Pittsburgh visitor Wednesday.

—

Held in Bank Scandal

J. Philip Hatch, president of two Boston produce companies, who was arrested at New Orleans. Hatch is enroute to Boston after waiving extradition, to be questioned in connection with the alleged embezzlement of \$120,000 from the Boston branch of the Bank of Nova Scotia. Hatch was arrested when the steamer Athens docked at New Orleans.

BIRTHDAY DINNER

Mr. and Mrs. James Boals entertained 18 friends at their home, East High st., Tuesday evening, honoring Mr. Boals' birthday anniversary.

A three-course dinner was served. Yellow daisies formed the centerpiece on the table. Radio music and cards entertained. Mr. Boals received several presents.

—

ROESSLER-INGLEDUE
Miss Gertrude Rosier and Charles Ingledue were united in marriage about noon Wednesday by Rev. Charles Bailey, pastor of the First Friends church, at his home, East Fifth-st.

Mr. and Mrs. Ingledue will make their home in Alliance, where Mr. Ingledue is employed.

—

ANNIVERSARY SURPRISE
To celebrate their 17th wedding anniversary 20 friends and relatives of Mr. and Mrs. Frank Pink gave them a surprise party Wednesday evening at their home, Summit st.

Games furnished pleasure and honors were won by Mrs. Clarence Scullion. Lunch was served.

—

HALLOWEEN CLUB
Members of Junior Order of the Rose, Columbine court, W. B. A. will meet from 6:30 until 9:30 p. m. Friday at the home of Mrs. Margaret Wagner, 67 East Fifth st., for a Halloween party. Each member is requested to come masked.

—

Mrs. O. B. Warner, Ellsworth ave., spent Thursday at the home of her brother, Harry McNeal, at Washingtonville.

—

Mr. and Mrs. Frank Buxton, East Liverpool, were guests Wednesday evening of Dr. E. A. Coles, Garfield ave.

—

Mr. and Mrs. Elmer Hendricks have returned from Rockland, O., where they visited their son, Carl Hendricks.

Mrs. Robert Spencer, East Liverpool is a guest of Mr. and Mrs. C. M. Wilson, McKinley ave.

Miss Alice Whitacre returned Wednesday evening from Cleveland, where she spent a few days with her parents.

—

Diaghileff Wealth Is All In Scenery

London, Oct. 24.—What a lawyer and a shepherd will do with a storehouse full of scenery and what 65 nimble-footed Russian dancers will do for a living are problems created by the death of Serge Diaghileff, famous ballet master.

Eric Wolfheim, who was Diaghileff's manager, revealed that the entire troupe is virtually stranded at Monte Carlo.

"Diaghileff's property consists principally of scenery and costumes—all that was necessary for 60 or 70 productions—and it will go to his nearest relatives, a shepherd and a lawyer living in Russia," said Wolfheim.

"Some of the sets were painted by Picasso who now receives \$5,000 for a small picture but you can't make a picture out of it."

"It costs us from \$10,000 to \$25,000 to make scenery and put it on the wall."

"To make ends meet during a London production, we were going to tour England but I do not like asking for money. Anyway, people do not understand that the Russian ballet has to be guaranteed like grand opera."

"We were offered vast sums to make a talkie of our show and other kinds of contracts but none would have fitted in with Diaghileff's views, so I was unable to accept them."

—

Americans Most Talkative People

Chicago, Oct. 24.—Americans are the most talkative people on earth. Every twelve months they carry on approximately 22,500,000 conversations over the telephone alone, twice as many as all other nations combined, according to Richard E. Smiley, vice president of the Bremer-Tully Manufacturing company.

Smiley predicted that there will be twice as much conversation carried on in the next decade as the result of new radio channels of communication in short wave and ultra-short wave area.

"America will be the future great radio center of the world not only because it is the most mechanically minded nation of them all, but because American talkativeness will literally force the discovery of new channels of radio expression."

Germany, with less than 2,500,000 telephone conversations yearly, is the second most talkative nation in the world according to Smiley.

Buchanan Home To Go Under Hammer

Lancaster, Pa., Oct. 24.—"Wheatland," the beautiful home of President James Buchanan, is to go under the realtor's hammer and be sold to the highest bidder.

The property is now owned by Miss Mary Rettew, cousin of George B. Wilson, who purchased the estate from Mrs. Harriette Lane Johnson, mistress of the White House during the Buchanan administration, in 1864.

Miss Rettew says the stately mansion is too large for her small family. "Then, too, it has so many associations and memories that it is mighty lonely."

"Wheatland," in its entirety, includes eleven acres of land and a frame house besides the mansion. Fear that the modern practice of breaking up old estates in order to further real estate developments may encroach on the sacred memories connected with the estate is the one disturbing factor in Miss Rettew's plans to sell.

Buchanan left "Wheatland" when he assumed the presidential toga in 1857 and returned to his estate in 1861, after relinquishing the reins of office to President Lincoln, Buchanan's successor.

HUSBAND FACES MURDER CHARGE

Kentuckian Held Without Bond After Witness In Slaying Appears

Greenup, Ky., Oct. 24. — Wiley Childers, 27, of Ashland, Ky., is being held in jail without bond here today on a charge of slaying his 18-year-old bride, Virginia, following a preliminary hearing here yesterday.

Bond was denied by Judge R. T. Parsons, after Mrs. Childers' father, Maryland Potter, a tall mountaineer, told the court he saw Childers shoot and kill his daughter.

Potter admitted firing four shots at Childers, after, he said, the man had shot and killed his wife. Childers denied that he had fired a single shot. He quarreled with his wife, he declared, and she had gone to her parents' home. He related that he had followed her to attempt a reconciliation and that she was standing on the running board of his automobile when he heard the shots. She dropped and he fled after being wounded in the hand, according to his own story.

The father of the girl-bride said he fired to "stop Childers."

German Experiment To Curb Disasters

Berlin, Oct. 24.—In order to reduce fatalities and to learn more about the real causes of mine disasters the German government, in close connection with the Prussian state and the German Miners association, installed an experimental mine near Gelsenkirchen in the Ruhr coal district. This mine is the only one of its kind in Europe.

In the former Hibernia mine, which long ago was abandoned because of the danger of explosion there, salvage crews are trained to use gas masks, reinforce and rebuild destroyed pits and handle fire fighting apparatus. In special rooms beneath the surface rescue workers of the various German mines undergo severe tests as to their fitness for this kind of work, five times a year. These rooms are filled with poisonous carbon gas and heated up to 104 degrees, and, under the same conditions as after a real mine explosion, the men have to fulfill various tasks.

In other parts of the mine chemists and mining engineers are experimenting with artificial coal gas and dust explosions. From safe cabins the explosions are photographed and measured by scientific apparatus. All sorts of explosives are thus tested to find out one that develops the least sparks when exploding.

Peanuts Taboo

Boston, Oct. 24.—A measure intended to save the squirrels inhabiting the Old Granary burying ground from obesity has been approved by the Park Department. Complaining that the squirrels inhabiting the burying ground are becoming abnormally fat due to the generous diet of bread crumbs and nuts provided them by visitors, the park commission has prepared signs warning kind hearted persons from feeding the animals.

"Back To Work Thanks to This New Konjola"

Lady Enthusiastic Over Quick Results That Modern Medicine Gave

MRS. MARGARET CHURE

"Konjola was certainly kind to me, my one regret is that I did not know of this medicine sooner," said Mrs. Margaret Chure, 5708 Bridge Avenue, Cleveland, Ohio. "I had backache and rheumatism so bad that I was unable to work. Week after week passed and though I tried many medicines and treatments, I derived no benefit from them."

"I read and heard a great deal about Konjola and made up my mind to try it. Just like I was told it would do, Konjola made its powers felt at once. My organs were cleansed and stimulated, and as their functioning became more normal, the pain grew less and less. In three weeks I was free from pains and back to work, thanks to this new medicine."

Konjola is sold in Salem at J. H. Lease drug stores, (Mr. Kaminsky) and by all the best druggists in all towns throughout this entire section.—Adv.

THE HOME KITCHEN

By Jeannette Young Norton

It goes by a variety of names but whether it is offered as Salisbury steak or hamburger steak or simply meat balls or meat cakes, it is all chopped meat, broiled or fried. It is an appetizing dish and so easy to make that one wonders why cooks ever go wrong on it. But they do. And it is no novelty to be served a beautifully browned meat ball that resists the fork as though it were a piece of concrete.

Meat balls should be firm in appearance, but soft and delicate to the touch of the fork. If the meat ball is too hard it is because an excessive amount of bread crumbs has

been mixed with the meat. Or eggs have been beaten into it. Eggs make the meat firm, true enough, but they also harden the mixture unnecessarily.

Raw meat makes the most flavorful chopped dish, although one can use up cooked left-overs in this way.

Beef Cakes

One pound of round steak chopped, one tablespoon grated onion, one teaspoonful salt, one-eighth teaspoon pepper, two tablespoons fine bread crumbs, one-half cup hot milk.

Mix together until smooth. Form into little balls by rolling in the

hand and then flattening. Powder lightly with flour, and fry in a little bacon over a slow fire. Do not fry too quickly, or the outside will become brown and crisp and the inside remain raw. Slow frying will cook the meat throughout. After a few minutes turn on each side so that all the cakes are browned evenly.

If desired, spread a little made mustard on each side of the beef cakes before dusting with flour. This gives the flavor a good deal—if you like it that way.

Stewed Meat Balls

One pound veal, one-half pound pork, one small bunch celery, two tomatoes, one bunch carrots, one green pepper, one egg, few slices bacon, one-half teaspoon salt, one-eighth teaspoon pepper.

Have the veal and pork run through a meat chopper and mix with chopped bacon. Add salt, pepper and beaten egg and roll into small balls, but do not flatten. To one quart of hot water add the celery cut into small lengths, also the sliced carrots and the tomato. Let come to a boil. Meanwhile brown the meat balls in hot fat, then drain and add to the vegetable mixture. Reduce the heat and cook slowly for one hour.

Chicken or Veal Cakes

Left overs of veal or chicken that are too small or irregular in shape to do for direct service may be made quite elegant in appearance as meat cakes. Trim carefully all bits of gristle or bone. Run through a meat chopper or mince finely.

Stunning Tweed Frock

PATTERN 1753

Salem News 15c Practical Pattern

SMARTNESS is achieved in this woolen frock, in trim tailored effect. A rounded vestee is quite unusual. The separate skirt is pleated in front, and attached to a band, so that it may be worn with other blouses. Small pockets adorn the over blouse.

Design 1753 may be made of tweed, jersey, covert cloth or velveteen. Tweed mixtures of black, red and white, or brown and beige are delightful. The narrow belt may be made of the dress fabric, or leather may be chosen. If velveteen is used for the frock, we suggest a small print.

May be obtained only in sizes 14, 16, 18, 20, 22, 24, 26, 28 and 30. Size 14 requires 3 yards of 54 inch material.

This model is easy to make. No dressmaking experience is necessary. Each pattern comes to you with simple and exact instructions including yardage for every size. A perfect fit is guaranteed.

Patterns will be delivered upon receipt of FIFTEEN CENTS (15c) in coins carefully wrapped or stamped. Be sure to write plainly your NAME, ADDRESS, STYLE NUMBER and SIZE wanted.

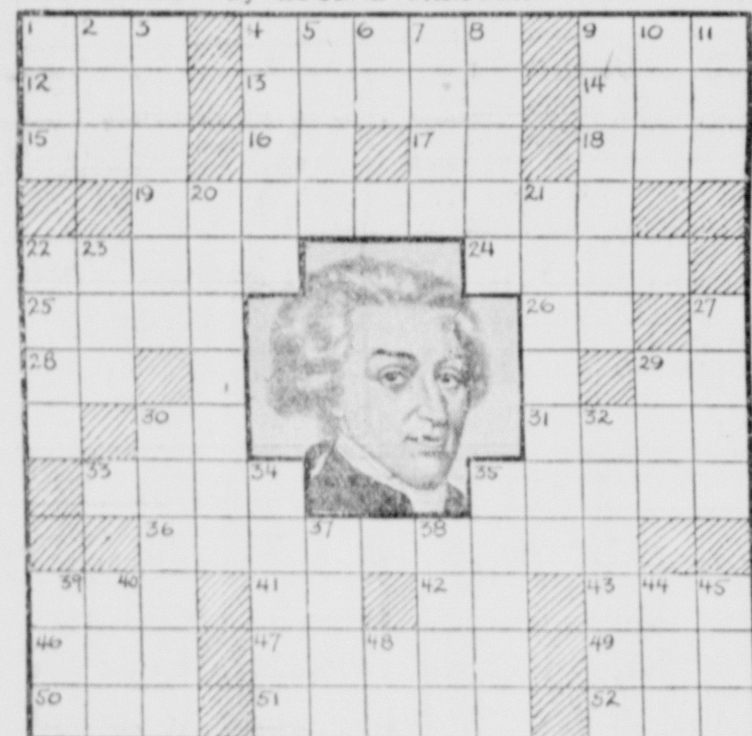

Our LATEST FASHION BOOK will be sent upon receipt of TEN CENTS in coin. Address all mail and orders to SALEM NEWS Pattern Department 243 West 17th Street, New York City.

1753

Today's Cross-Word Puzzle

By EUGENE SHEFFER

The well-known French politician pictured today is probably not so well known under the name of Marie Joseph Roch Yves Gilbert Motier (actually he owned all those names!), but we can easily identify the famous general by spelling out his name in 36 Horizontal.

HORIZONTAL

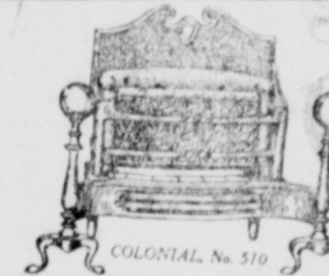

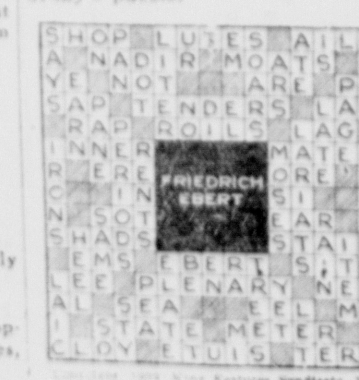

- 1—Black European beetle.
- 4—Withers.
- 9—What American poet wrote "The Raven".
- 12—What is the missing name in this celebrated line of poetry, "— Ben Adam, may his tribe increase".
- 13—In a tilted manner.
- 14—Girl's name.
- 15—Encore.
- 16—Proceed.
- 17—Symbol for samurai.
- 18—Soak as flax.
- 19—What are the following men by nationality: Balboa, Velasco, De Soto?
- 22—What Biblical prophet of Jehovah was carried to Heaven in a chariot of fire?
- 24—Show the bottom.
- 25—Executive officer of a college.
- 26—Symbol for germanium.
- 29—Note of the scale.
- 30—Exclamation of surprise.
- 31—What son of Adam slew his brother?
- 33—Who was Emperor at the time of the burning of Rome?
- 35—Which of the apostles was "called Peter"?
- 36—What French noble did much to help the Americans during the American Revolution?
- 39—Feminine pronoun.
- 41—For instance (abbr.).
- 42—French article.
- 43—Slight inclination of the head.
- 46—What Greek woodland spirit is identified with the Roman Faun?
- 47—Sun dried brick.
- 49—Cease to exist.
- 50—Man's name.
- 51—Light and fine.
- 52—Cunning.

VERTICAL

- 1—Smear lightly.
- 2—Japanese sash.
- 3—What country was formerly ruled by the czars?
- 4—Scandinavian myths.
- 5—What ecclesiastical town lies on the V. also, on the Thames, England?

- 6—What State (abbr.) is nicknamed "Little Rhody"?
- 7—Who is the heroine of Wagner's opera "Lohengrin"?
- 8—What American Revolutionary brigadier-general defeated the British at Bennington?
- 9—A Zoroastrian of India.
- 10—Lyric poem.
- 11—Consume.
- 20—In Greek mythology who possessed the box in which all ills were supposed to have been sealed?
- 21—Deficiency.
- 22—Border.
- 23—Who was the commander-in-chief of the Confederate forces during the Civil War?
- 27—What English Quaker was the founder of Pennsylvania?
- 29—What is a familiar name for the capital of Brazil?
- 30—What is the capital of Montana?
- 32—Changes.
- 34—Rubbish or refuse of any kind.
- 35—Guide, as a ship.
- 37—Officer in attendance on a monarch.
- 38—River in Germany.
- 39—Mineral spring.
- 40—Possesses.
- 41—Lubricate.
- 45—Turkish governor of Algiers (before French conquest).
- 48—What king of Bashan was conquered by the Israelites?

Here-with is the solution to Saturday's puzzle.

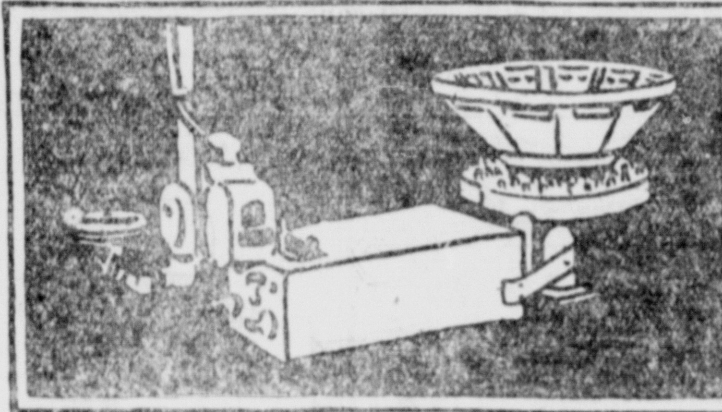

RAY - GLO HEATERS

Nature's Own Healthful Way of Heating the World

C. S. CARR—HARDWARE

THERE IS STILL TIME

To modernize your present Heating System before the Fall and Winter months set in

THE SELF-ACTION GAS-FIRED HEATING UNIT

It makes no difference what type of heating plant you now have—hot air, hot water or steam—we can make it completely modern in a few hours by installing the gas-fired heating unit.

No radical changes are necessary. All we do is replace the grate bars of your plant with this unit and then, with the same heating system, you enjoy the luxurious comfort and satisfaction of gas heat.

The unit is thermostatically controlled. A mere regulation of the upstairs indicator gives you any desired temperature at all times—a delightfully comfortable, clean and healthful heat.

With the installation of this machine all of your usual heating troubles vanish. It spells end to stoking, cleaning and scrubbing, and ashes, dust and grime of the old methods.

\$15.00
ONLY DOWN

Installs this unit in your present heating plant immediately. The balance may be arranged in payments to suit your income. Payable monthly with the gas bill. Visit or phone our appliance store for a free estimate and survey.

ROYAL AIRMEN PLAN DRIVE AT AERIAL MARKS

Force Would Capture
All Existing
Records

London, Oct. 24.—Having captured the world's air speed record, the Royal Air Force is now actively engaged in preparing for attempts on the two other most important world records in aviation—the altitude record and the long-distance record, despite Coste's recently reported record.

An attempt on the altitude record, with a specially built single-seater biplane, fitted with a super-charged engine, will be made in the near future, it was learned from an authoritative source at the Air Ministry today.

London To India
The attempt to beat the world's long-distance record will also begin shortly when a Fairey Long-Range monoplane, which recently flew to India in fifty hours, will set off on an attempt to fly non-stop to Capetown, a distance of some 6,000 miles.

Fuel consumption tests are now taking place, and minor modifications, dictated by the flight to India, are being effected in readiness for an early start as soon as weather conditions over the route become favorable.

Squadron Leader A. G. Jones-Williams, pilot of the machine on its flight to India, will again be in charge, and will be accompanied by an assistant pilot-navigator.

Starting from Cranwell Aerodrome, the machine will travel day and night, across Europe, the Sahara Desert and down the southwest coast of Africa to Capetown or Durban, should an unexpected head wind be encountered.

The present distance record is held by the Italian airmen, Ferrarini and del Prete, who flew from Italy to Brazil a distance of 5,092 miles, in 58 hours and 37 minutes.

Organized Plan
This bid of the Royal Air Force for air supremacy is part of a well-organized plan to make Great Britain's air service "second-to-none." For the past two years her aeronautical experts have been engaged in perfecting the highest type of machines both for military and commercial purposes.

For over two years her air planners have been gathering data until now the British Air Ministry has what is claimed to be an unrivaled extensive knowledge of the air routes throughout Europe. Within the next five years Britain hopes to present to the world the most extensive chain of regular air services ever seen—the linking up of the Dominions with the Homeland by air. This is not merely a Utopian dream of British aeronautical enthusiasts. It is a reality toward which British air officials have been constantly working for more than two years.

India Soon To Get Status of Dominion

London, Oct. 24.—India will enter on the same Dominion footing as Canada and Australia. This is the decision of the Labor government in Britain, and it is likely to take effect before the New Year.

This change will come as the climax to the drastic changes in British policy towards Egypt, Iraq and Russia. It will be the natural corollary of Labor policies for the past 15 years, but it will be based, in the present instance, on the report of Sir John Simon's commission which is expected early in December.

For some months Lord Irwin, viceroy of India has been in communication with the most important Indian political leaders in order to see how many would be willing to co-operate in the settlement of the future constitution of India. A "round-table" conference to examine the best methods of procedure to bring about the change is likely to be the next step.

It is believed that Premier Ramsay MacDonald will send personal invitations to the chief Indian leaders—with all of whom he is personally acquainted—to take part in these deliberations, and it seems most likely that national leaders like Mr. Gandhi and Pandit Motilal Nehru would gladly accept Mr. MacDonald's offer.

An invitation will also be sent to the Chamber of Princes to send a delegation so that all parties will be amply represented.

MIDDLETON

Mr. and Mrs. Joseph Edgerton and son, Stephen, moved last week from the E. L. Cope house to the old Kannal property now owned by Samuel Cope. On Thursday the Edgertons left for a visit with Mrs. Edgerton's parents at Winchester, Ind., and Antioch College, in Ohio.

Hanna and Inella Blackburn were guests at a family party given by Dr. and Mrs. W. J. Blackburn at their home on the Salem-Winona road on Thursday. The affair was in honor of Hanna Blackburn's 92nd birthday anniversary and their son William, Jr.'s 38th anniversary occurring on Oct. 18.

Other guests were the Misses Abbie and Mary Blackburn, also Mrs. John Oliphant and children, of Winona.

Mr. and Mrs. Joshua Brantingham were Saturday dinner guests of Mr. and Mrs. David Morlan.

Mr. and Mrs. Cyrus Cooper and son, Samuel, left Tuesday morning for a visit with friends in North Carolina and relatives in Colorado.

Appointed by Hoover

JAMES R. GARFIELD, OF CLEVELAND, OHIO, SON OF THE LATE PRESIDENT, WHO WAS NAMED BY PRESIDENT HOOVER AS CHAIRMAN OF THE PRESIDENT'S COMMISSION ON CONSERVATION AND MANAGEMENT OF THE PUBLIC DOMAIN.

James R. Garfield, of Cleveland, Ohio, son of the late President, who was named by President Hoover as Chairman of the President's Commission on Conservation and Management of the Public Domain. It is the President's plan to evolve a means whereby the non-mineral rights to the public domain will, in large measure, be returned to the states.

**Sweeping Changes
Among Commissars**
Moscow, Oct. 24.—A series of sweeping changes in the council of People's Commissars are unofficially reported as being contemplated by the Politburo, the cabinet council in the Kremlin. In every case the promotions go to staunch supporters of Joseph Stalin, who as general secretary of the Communist party heads the proletarian dictatorship in Russia.

Alexey I. Rykov is rumored as destined to be replaced as chairman of the council of People's Commissars, a position roughly corresponding to that of premier, by V. V. Kuibishev, chairman of the Supreme Economic Council. M. Rykov has been identified with the conservative or "right" faction in the Communist party. Last spring he was ousted as chairman of the Council of Commissars of the State of Russia.

A. I. Mikoyan, Commissar of Trade, according to reports, is slated to become chief of the G. P. U. (political police) succeeding Dr. V. R. Menjinsky, who has been in poor health for some time.

N. I. Semashko, commissar of health, may also be removed.

The ousting of M. I. Frumkin, another "right" oppositionist as assistant commissar of finance, is indicative of drastic political changes in all the Commissariats, including the Foreign Office where several under-secretaries have been removed. Six factory workers are said to have been given jobs in the Commissariat of Health. The chiefta (cleansing process) is still going on with such thoroughness that no official appears certain of his job. When the cleansing is over M. Stalin will be in complete control of the government as he is of the Communist party.

**England To Build
Greater Airship**
London, Oct. 24.—A new giant British airship, larger and more powerful than the R101, and the R100, built specially for trans-oceanic flying and designed to alight upon and take off from the water, will shortly be put into construction at Howden, Yorkshire.

The new giant airship, of which details have just been revealed, will be 453 feet in length, have a beam of 230 feet, and a depth of 125 feet and will accommodate between 300 and 400 passengers and a large crew.

The airship will be lifted by 14 engines. Her gas capacity will be 12,000,000 cubic feet and she will be fitted with two floats, 300 feet long, after the style of huge hydroplanes.

These floats will be fitted with 300 tons of water each, and will act as anchors when the airship is at rest on the ocean.

Cabins, corridors, decks, lounges and the crew's quarters are to be in the great hull, and every luxury provided for the passengers.

Scale models of the giant dirigible have been successfully tested at Howden, and the new super-airship construction will begin when the R101, now nearing its trial stages leaves the Howden hangar.

Like Japan—second only to a corporation was the emblem of the sacred mirror, emblem of the Sun Goddess which is placed in a new temple every twenty years.

Present, state officials and a crowd estimated at 300,000 witnessed the spectacle, while 35 warships were illuminated in the bay.

BRITAIN BUILDS BIG RACING CAR TO SET RECORD

Will Bring Car To
Florida Beach In
February

London, Oct. 24.—A racing auto fitted with two engines designed to develop no less than 4000 horsepower is being secretly constructed over here for Kaye Don, the British racing motorist, who intends to drive it along the sands of Daytona, Fla., next February, in defense of Great Britain's title to the world's land speed record.

Details of this car were revealed to International News Service recently. It will be the most powerful racing car ever constructed and is expected to attain a speed of between 250 and 300 miles an hour. The machine is a Sunbeam. Its designer, is Louis Coatalen, who designed two of the cars which have previously established speed records for Britain.

Expects Speed
Kaye Don, who expects to wrest from Sir Henry Segrave the title of "Britain's speed-king," is confident that he will "run away" with the present record of 231 miles an hour, established by Segrave at Daytona earlier this year in his 1,000 h. p. racer, the Golden Arrow.

Don is further confident that America will not be able to put any car in the field that can even threaten his chances, barring accidents.

The new machine has been virtually "made to fit" him for it has been built especially for him. The whole measurements are based on the width of the driver. So close are these that he will be unable to get in the cockpit without the steering wheel being removed.

In order to cut down the wind resistance as much as possible, the 24 cylinders of the two engines have been crammed together. The machine is no larger than a small family car and is very close to the ground.

risers when its speed is increased, this car will tend to clamp itself more tightly to the ground.

Special Tires
Experiments are now being conducted with the tires and it is likely that they will be made of a composition consisting of a large quantity of silk.

Unprecedented precautions are being taken for the safety of the driver. He will be sitting in what is virtually a chrome steel case and will be strapped tightly into his seat.

The seat of the car is built on a spring which is claimed will act as a shock absorber. This will prevent Don from experiencing any serious vibration which otherwise might hinder his steering while he was travelling at a speed approaching five miles a minute.

An Ailing CHILD

Are you prepared to render first aid and quick comfort the moment your youngster has an upset of any sort? Could you do the right thing—immediately—though the emergency came without warning—perhaps tonight? Castoria is a mother's standby at such times. There is nothing like it in emergencies, and nothing better for everyday use. For a sudden attack of colic, or the gentle relief of constipation; to allay a feverish condition, or to soothe a fretful baby that can't sleep. This pure vegetable preparation is always ready to ease an ailing youngster. It is just as

harmless as the recipe on the wrapper reads. If you see Chas. H. Fletcher's signature, it is genuine Castoria. It is harmless to the smallest infant; doctors will tell you so. You can tell from the recipe on the wrapper how mild it is, and how good for little systems. But continue with Castoria until a child is grown.

MOVIES

"COLLEGE LOVE"
A fast-moving comedy drama of
college life is heralded for final
showing at the Royal Theatre to-
night when "College Love," a fea-
ture picture made by the same cast
as Universal's popular "College-
ian" short comedies, will be the principal
attraction.

"College Love" may be considered
the graduating opus of this popular
group of screen players. It is the
last college picture in which they
will be seen together. Featuring
George Lewis, with such sterling
support as Dorothy Gulliver, Eddie
Phillips, Churchill Ross, Hayden
Stevenson and Sumner Getchell, the
photoplay was directed by Nat Ross
under the supervision of Carl
Laemmle, Jr., from a story by
Leonard Fields.

The high-light of the picture is a
stirring championship football game.
This part of the picture was made
in the famous California stadium
where the big East-West game is
played, and all the color and excite-
ment of the vast arena and its
thousands of football fans have been
captured in celluloid.

Other phases of college life also
are shown in faithful production;
campus antics, fraternity and soror-
ity house festivities and the feverish
enthusiasm of a big game rally and
torch-light parade. Through it all
runs a delightful love story and the
rivalry of two popular campus fig-
ures over the heart of a campus
sweetheart.

"THE GAMBLERS"
"The Gamblers," all talking pic-
ture, will be seen by the first night
audience at the State tonight. It
is a Vitaphone version of Charles
Klein's famous stage play of the
same name.

The all star cast includes H. B.
Warner, Lois Wilson, Jason Robards,
George Fawcett, Johnny Arthur,
Frank Campeau, Pauline Garon and
Charles Sellon.

"The Gamblers" is a tense drama
of big business, the principals be-
ing a wealthy father and son known
as the "gambling Emersons." The
hot-headed young Emerson makes
loans inimical to the safety of de-
positors in the banking house of
which he is the nominal head. A
Government investigation is immin-
ent, and the man who is to prose-
cute happens to be married to a
former sweetheart of young Em-
erson.

The way in which the wife causes
her husband to quash the charges,
through memories of her love for
the accused—is the climax of a story
which is vital and exciting and
pictures Wall Street and the ma-
chinations of frenzied men whose
sole idea is the accumulation of
Wallford millions.

Boston U. Reports Valuable Gifts

Boston, Oct. 24—Gifts to Boston
University amounting to \$110,000
were revealed in the fourth annual
report by Dr. Daniel L. Marsh, pres-
ident of the University to the
Trustees.

Most prominent of the donors was
Dr. William E. Cheney, Boston
physician, member of the Executive
Committee of the University's trust-
ees and faculty member at the Bos-
ton University school of Medicine,
who provided \$100,000 to the new
building fund, the aim of which is
to establish a new University
campus on the banks of the Charles
River.

A Detroit preacher, Rev. J. E.
Jacklin, a graduate of the Boston
University school of theology, was
revealed as the donor of \$10,000.

84 COLLEGES ACCUSED OF SUBSIDIZING ATHLETES BY COMMITTEE

Carnegie Foundation Reveals Report That Discloses New Facts

By DAVIS J. WALSH
New York, Oct. 24.—Rocked giddily upon its pedestal by the report of the Carnegie foundation, specifically condemning the conduct of sports in 84 of the 112 institutions surveyed, Collegiate America today was rallying with denials of the perjury charged against it. College presidents whose institutions were named in tones of approbrium were not slow to deny the existence of conditions such as the foundation's committee claimed to have found. Deans and athletic heads were being quoted at length and in the same vein.

But in the midst of the denials, the foundation's report remained in black and white, a 383-page document that stood as a scathing indictment of sport in the American college at large. It did not level its attack in terms of vague generalization, either. The result of what is purported to have been 3½ years of intensive study, it attacked specifically, the names of some of the most revered of our institutions being banded about indiscriminately.

All told, 112 colleges, apportioned geographically, were visited since the survey began back in 1925. Only 28 could be given a clean bill of health, the report said. The immaculate 28, of which not more than a half dozen are major institutions, follow:

28 Offenders
Bates, Bowdoin, Carleton, Chicago, Cornell, Dalhousie (Canada), Emory, Illinois, Laval (Canada), McGill (Canada), Marquette, Massachusetts, Massachusetts Tech, Ottawa (Canada), Queen's (Canada), Reed, Rochester, Saskatchewan (Canada), Toronto (Canada), Trinity, Tufts, Tulane, U. S. Military Academy, Virginia, Wesleyan, Williams, Wooster college and Yale.

These 112 in the field represented just 25 per cent of the colleges visited and never of them were Canadian colleges at that.

Among the others were some of the greatest institutions of learning in the land—Harvard, Columbia, Princeton, Michigan, Ohio State, Vanderbilt, Wisconsin, Northwestern, Purdue, Minnesota, Notre Dame, Georgia Tech, Alabama, California, Southern California and Stanford, to name only a few. Not all of them were alleged to be wholly reprehensible in their conduct of athletics. But, as to that, the committee, composed of Dr. Howard J. Savage, John T. McGovern and Dean F. Smiley, M. D., rendered an exhaustive individual analysis and let the reader judge for himself.

The committee claims to have discovered that these institutions

maintained a recruiting correspondence, either on a small or a large scale: Alabama, California, Columbia, Denver, Drake, Michigan, Montana State, New York university, Ohio Wesleyan, Oregon Aggies, Pennsylvania, Southern California, Rutgers, Vermont, Washington W. & J., Washington State and Wisconsin.

It was mentioned that while the correspondence at Alabama seemed to be "unnecessarily voluminous," it was written with a care for standards and addressed only to high school boys within the state. However, at Brown, Dartmouth, Montana State, N. Y. U., Pennsylvania and Wisconsin, the report said, it was necessary to appoint a member of the athletic staff to take care of the correspondence, so great was the amount of schoolboy mail all around in terms of vague generalization, either. The result of what is purported to have been 3½ years of intensive study, it attacked specifically, the names of some of the most revered of our institutions being banded about indiscriminately.

Amherst, Arizona, Drake, Michigan, Northwestern, Oregon Aggies, Purdue and Southern California, it is inferred, have alumni secretaries who have connections of "varying intensity with the alumni on one hand and the athletic organization on the other." In addition to these, it was said that the alumni secretaries at Georgia Tech, Vermont, and W. & J. have become involved in recruiting "by correspondence or in person." The assistant secretary of Oberlin, the assistant to the president of Gettysburg and the business manager of Drake are mentioned having corresponded with athletes. Dartmouth, it seems, has an unpaid alumnus that looks after this work, thus giving it an unofficial tinge. Brown and Purdue the report adds, have paid agents.

Ohio State Listed
The coaches at Bucknell, Colgate, Columbia, Georgia, Georgia Tech, N. Y. U., Oglethorpe, Tennessee, W. & J., and Western Maryland are "expected or permitted" to devote much of their time to recruiting. It is added, and that "evidence adduced" indicated that Michigan, Ohio State, Purdue, Southern California and Wisconsin went in "for a systematic approach to schoolboy athletes."

The report names Indiana as having an alumnus who hired a special car to transport prospective athlete students to the university. Occasionally, it softens its recriminations, as in referring to Princeton and Stanford as taking a genuine personal interest in their athletes, aside from their ability and in mentioning Amherst, Princeton and Tennessee as having athletic authorities who in three instances were opposed to some recruiting that was alleged to have been under way.

But, mostly, the indictment runs on, ad infinitum, in a coldly critical vein—jabbing here with a spiteful lance, pricking the skin there with the fine point of its hypodermic of alleged findings.

All too few escape its venom. All too many are frankly charged with malfeasance of one kind or another. For the former, there is the cloak of virtue. For the latter, there still is the chance of vindication.

The committee has dealt in what it declared to be facts. If this be true, there is only one course to the accused. They must fight facts with facts, granting that they have such things at their disposal.

COURT NEWS

Case Is Settled
More than two years ago May Martin filed an action in the common pleas court against Flora B. Swickard and others asking judgment for \$500 claimed due her on a deal involving a property in St. Clair township. On Tuesday the case was settled for \$250, the plaintiff accepting this amount in full settlement.

Order Granted
A temporary restraining order has been granted on the petition filed by Attorney Ben L. Bennett on behalf of Gertrude B. Phillips against Ralph T. Couch, Potters Lumber Co. and Ed. Kirkham.

Joe Savoldi, the hero of the Notre Dame-Wisconsin game last Saturday, who hails from Three Oaks, Mich. Joe takes his football seriously and is of the plunging, crashing, running type. On Saturday last Joe raced for 40 and 70 yards for two touchdowns and contributed to another.

HOMEWORTH

Mrs. Sarah Sanor has been called to Detroit, by the serious illness of Mrs. G. E. Thomas.

Mr. and Mrs. Paul Heestand of Alliance were guests of relatives at Homeworth, Sunday.

C. E. Essick of Alliance, spent Sunday with Mr. and Mrs. F. S. Pieren.

Mr. and Mrs. Wm. Slabaugh and family of Akron, spent Sunday with relatives and friends here.

Mr. and Mrs. Harry Stump and son, Harold, spent Sunday with Mr. and Mrs. Floyd Smith of Greensburg.

Mr. and Mrs. J. O. Grim and family of Canton, spent Sunday with relatives here.

Miss Nellie Malone has returned to Homeworth after spending a six weeks' pleasure trip in Bennington, Vt., and Newark, N. J.

Mrs. Bertha Stump was the guest of her daughter, Mrs. V. L. Thomas of Alliance, Sunday night and Monday.

Mr. and Mrs. Scott Guthrie and daughters of New Alexander, spent Sunday with Mrs. Guthrie's brother and wife, Mr. and Mrs. Chalmers Betz of Homeworth.

The Loyal Workers Farm Women's club met with Mrs. Emma Yeagley Wednesday afternoon. Roll call was "Books for Christmas Gifts." The topic was "Meat Curing, Meat Eating and Meat Substitutes." Mrs. Mae Yagel, was leader.

Mr. and Mrs. Earl Smith and Mr. and Mrs. Ernest Barriek have returned to their homes from a motor trip to Watkins Glen, New York.

Mr. and Mrs. Clyde Conrad and daughters, Velma and Donna Mae, were guests of Mr. and Mrs. Donald Conrad, of Beloit, Sunday.

Atlee Freshley, son of Mr. and Mrs. P. W. Freshley of Homeworth, is enrolled as a freshman at Ashland college. He is a member of the college band which parades and plays in uniform at the college games and other events, under the direction of Allen R. Thompson of Muncie, Ind. Freshley has also been announced as a member of the Mens Glee club, which is directed this year by Miss Norma Hurdle, head of the department of voice.

In the early spring the club of 35, will probably take a tour under the management of Prof. R. R. Haun, Dean Stoffer, son of Mr. and Mrs. Leader Stoffer of Homeworth, is a member of the Junior class at Ashland college.

Ottawa.—A marked increase in the Federal income tax collections for the first half of the current fiscal year is announced by W. D. Euler, Minister of National Revenue. The total collections for the six months ended September 30 were \$63,039,630, as compared with \$52,972,358 for the corresponding period of the previous year—a gain, roughly, of 20 per cent.

Washington.—Drug "cures" for cancer have been barred from the interstate mails as the result of a twenty-two year campaign against quacks conducted by the drug department of the Department of Agriculture.

Forward Pass Results In Only Touchdown Of After-Dark Grid Tilt

Playing under the worst of weather conditions the strong East Liverpool Pros handed the Salem Studebakers their third defeat of the season by a 6-0 score at Reilly stadium Wednesday night.

With the field a veritable sea of mud and water and the temperature hovering close to freezing neither team was able to display its best football only two first downs being made during the entire fray on straight grid tactics while a third resulted from a 20-yd forward pass which incidentally gave Liverpool its winning touchdown.

Liverpool had the better of play throughout the game forcing Salem to defend itself against further score repeatedly when the Pros took advantage of fumbles by the Studebakers and held the slippery spiral in the home team's territory no less than seven times.

The sole score of the struggle resulted from an aerial heave by Rudy Halpate, former Toronto Tiger pro star to "Goose" Mundy. Liverpool was given the ball on Salem's 11-yd line when Pete Sartick's punt was forced straight into the air by a strong wind and rolled out of bounds back three yards from where he started the boot. Hinkle was thrown for a 10-yd loss on the next play but Halpate completed the pass on the succeeding effort.

Salem's goal was endangered three minutes after play started when Pete Sartick's punt was blocked on his own 15 but the ball was recovered by T. Ciminelli. He punted again but Liverpool brought the ball to Salem's 28-yd line but failed to gain. Bell attempted a place kick but it was wide.

Another fumble in the second quarter gave Liverpool the ball on

Salem's 20 towards the close of the second period but the half ended before the ball was advanced.

Salem Completes Pass

Salem completed its only forward pass of the game in the third quarter but it went for a gain of only three yards. Fumbles gave Liverpool the ball twice within Salem's 30-yd line in the period but the line braced and Liverpool was forced to give up the ball on downs or passed over the goal for a touch-back.

In the fourth quarter Liverpool outplayed Salem kickers and had the ball on the Studebakers' 15-yd line when Dowd saved a possible score by recovering a fumble. Sartick punted out of danger but on the return kick he fumbled again a len's 12. Line plunges failed and Liverpool end dropping on it on Sa-Halpate hurled another pass over the goal which was nabbed by Hinkle for a score but Referee Pete Scullion ruled backfield motion and the touchdown was nullified. The next pass was incomplete and Sartick kicked out of danger. The game ended with the ball in the center of the field.

Less than 300 persons attended the game the majority of spectators being from East Liverpool. It was a bad night for any kind of sport except checkers and players merit commendation for taking the

field in face of adverse conditions, both financial and atmospheric.

Lineups

Lineups follow:
SALEM: Jones, LE, Phillips, Simonds, LT, Hinkle, Jacobson, LG, McKinney, Matthew, C, Pickard, Harrington, RG, Bosso, J. Ciminelli, RT, Bell, Dowd, RE, Mundy, Wilson, Q, English, P. Sartick, LH, Finley, M. Sartick, RH, Halpate, T. Ciminelli, F, Jones.

Touchdown—Mundy.
Referee—Pete Scullion.
Umpire—Kiddier (East Liverpool).
Head linesman—Sam Watkins (Salem).

Air Express

Washington, Oct. 24.—Approximately 5,845,000 pounds of express were carried by air in the United States during the past three years, according to Department of Commerce figures.

Honolulu.—Dr. Withington, a member of an anthropological expedition, is critically ill in the Interior of Australia. An airplane will undertake to bring him 1,000 miles to Sydney according to a message received by his wife here.

Seventy Years Young! AN ANCIENT PREJUDICE HAS BEEN REMOVED

AMERICAN INTELLIGENCE scorns that ancient prejudice which harshly dictated that age was a limiting factor of usefulness. To-day, old age not only commands respect but demands its place in every walk of life.

"toasting did it"—

Gone is that ancient prejudice against cigarettes—Progress has been made. We removed the prejudice against cigarettes when we removed harmful corrosive ACRIDS (pungent irritants) from the tobaccos.

YEARS ago, when cigarettes were made without the aid of modern science, there originated that ancient prejudice against all cigarettes. That criticism is no longer justified. LUCKY STRIKE, the finest cigarette you ever smoked, made of the choicest tobacco, properly aged and skillfully blended—"It's Toasted."

"TOASTING," the most modern step in cigarette manufacture, removes from LUCKY STRIKE harmful irritants which are present in cigarettes manufactured in the old-fashioned way.

Everyone knows that heat purifies, and so "TOASTING"—LUCKY STRIKE'S extra secret process—removes harmful corrosive ACRIDS (pungent irritants) from LUCKIES which in the old-fashioned manufacture of cigarettes cause throat irritation and coughing. Thus "TOASTING" has destroyed that ancient prejudice against cigarette smoking by men and by women.

"It's toasted"

No Throat Irritation—No Cough.

TUNE IN—The Lucky Strike Dance Orchestra, every Saturday night, over a coast-to-coast network of the N. B. C.

© 1929 The American Tobacco Co. Inc.

"It's Toasted"—the phrase that describes the extra "toasting" process applied in the manufacture of Lucky Strike Cigarettes. The finest tobaccos—the Cream of the Crop—are scientifically subjected to penetrating heat at minimum, 260°—maximum, 300°, Fahrenheit. The exact, expert regulation of such high temperatures removes impurities. More than a slogan, "It's Toasted" is recognized by millions as the most modern step in cigarette manufacture.

ALASKA INDIANS SOON RICHER BY NEW U. S. PLAN

Developed Large Herds Of Reindeers; New Bill

Washington, Oct. 24.—Lo, the poor Indian of Alaska may turn out to be rich Indian under plans for his betterment now going forward under the guidance of the Department of the Interior.

Dr. Wilson John Cooper, commissioner of education who has just returned from an inspection trip of the territory, reviewed some of the department's projects in connection with its program of giving the Alaskan industrial training and guidance.

Many Indians and Eskimos of the region, he said, have developed reindeer herds of 5000 and more. The department will establish areas near the Alaskan railway, to which the reindeer will be driven for fattening. A butchering and refrigerating plant will be built, meat stored, the flow of meat to the States stabilized and a steady market built up.

Reindeer Meat
As the department estimates that each reindeer carcass will be worth approximately 15 under these conditions, some of the natives may build up considerable wealth.

Cooper declared there is a great need for native schools to give the Indians training in industry and sanitation.

Every year, he said, Filipinos and Orientals are imported to work in the fish canneries, though the aptness of the natives for this work is well demonstrated at two canneries owned and operated entirely by Indians. The development of the reindeer industry also promises additional employment for natives. Boat building, at which the Indians develop proficiency under training, is growing. The availability of pulp wood is leading to the development of paper manufacturing.

Hygienic education, Cooper believes, should be emphasized, and a peculiar type of teacher who is half Indian should be secured for service there. There is considerable tuberculosis in the native settlements, where 12 persons frequently live in one unventilated room.

Industrial Schools

There are now three industrial schools in operation, caring for about 250 pupils, and the establishment of another has been arranged. Most of the natives, however, go to day schools in their villages. The native and white schools, Cooper believes, should be merged in order to promote a better understanding between the two races.

The Alaskan Indian is quite a different creature from the popular conception of him. As he lives along the coast, he has long been in contact with the civilized world and can speak English. All of his children can read and write. He wears civilized clothes, eats civilized food—and contracts civilized diseases.

The present view, Cooper said, is that the Indians should not seek to remain a people apart, but should fuse into the general scheme of the community.

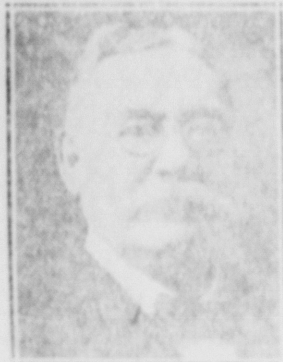

At Oxford

Cambridge, Mass., Oct. 24.—Two Davidson scholars, one from Oxford and the other from Cambridge, have enrolled at Harvard university for the coming year. Thomas Leslie Jarman comes from Oxford and Wendell Marston from Cambridge.

Many Bricks

Washington, Oct. 24.—Although only four stories high, the old pension office is said to have more bricks in its structure than any other building. Before President Wilson discontinued them all, inaugural balls were held in its great interior court.

COMING TO SALEM, O.

Will be in Salem on Saturday, Oct. 26th and each following Saturday, at **HOTEL LAPE**

If you have been treated elsewhere and found no relief, come as it will not cost you a cent for consultation or examination.

I positively will not accept any patient unless there is a reasonable chance for permanent relief.

If the blood is poor or Uric Acid in the system to any extent, then the patient will have a tired, languid feeling and no ambition.

DR. WILSON

Treats All Curable Diseases of Men and Women for Nervous, Chronic and Blood Diseases.

Office Hours—1:30 to 4 p. m., Saturdays
HOTEL LAPE, SALEM, OHIO
Home Office: Permanently located at 140 E. Market St., Warren, Ohio

Mother Swims River Handcuffed

Mrs. Lottie Schoemmel, of New York, mother of two beautiful children, just before she swam the Hudson River fettered with the handcuffs worn by Gerald Chapman, noted bandit, while he was taken to prison for execution. She started at Seventy-ninth Street at 1:05 P. M. and reached the Battery, about six miles distant, at 3 P. M.

Tokyo Will Stage Japanese Opera

A 100 per cent Japanese grand opera, entitled *Falling Angels* will be produced for the first time in Japan when a one-act opera written by Dr. Shoyo Tsubouchi, prominent dramatist, and composed by Mr. Koseki Yamada, one of Japan's leading composers, is staged for twenty-five days in December.

Elaborate preparations have already been made for this unique presentation of the first Japanese grand opera. Mr. Yamada has chosen the leading singers and a chorus of 100 voices for the production. Music will be furnished by the Japanese Symphony orchestra, of which Mr. Yamada is the head, and dancing will be by the troupe headed by Baku Ishii, a noted dancer, who two years ago toured the world and won considerable popularity.

The opera was composed 17 years ago by Yamada while he was a student in Berlin. His previous efforts to have it produced in Japan failed, due to the fact the public in general was not sufficiently interested in grand opera to justify the production. Since then the musical taste of the Japanese has improved so greatly that the production of the opera has been made possible.

NEW WATERFORD

Mr. and Mrs. Charles Harvey of the Washington county experiment farm, Marietta, O. accompanied by Mr. and Mrs. J. E. Schneider and son Norman, also of Marietta, were weekend guests of Mr. and Mrs. J. P. Lewis.

Mr. and Mrs. Goodman, Miss Christine Newman and Stanton Thomas of Akron were entertained over the weekend by Mr. and Mrs. O. O. Thomas.

Mrs. J. W. Bretz was pleasantly surprised on Sunday afternoon when all the children and their families drove in to the Bretz home bringing gifts and a splendid dinner in honor of her birthday anniversary which was an event of Saturday. Those present were Mr. and Mrs. Russell Bretz and three children of Youngstown, Mr. and Mrs. George Bretz of Niles, Mr. and Mrs. Carl Bretz and son of Girard, Mrs. J. R. Shenk of East Palestine, Mr. and Mrs. Ed Bretz and three children of this place.

Mr. and Mrs. J. Calvin Smith of Ligonier, Pa. are guests of their daughter, Mrs. A. A. Strong and family, honoring Mr. Smith's 77th birthday anniversary on Sunday. Mr. and Mrs. R. M. Smith of Akron spent the day at the Strong home. Mr. and Mrs. Karl Strong and baby of Cleveland and Arthur Strong of Baldwin-Wallace college were weekend guests of their parents and grandparents.

The Standard Bearers of the Methodist church met with Emma Dye on Monday night and elected Officers: Avis Unger, president; Earl Welch, vice president; Carl Burkett, secretary; Agnes Williams, treasurer; Emma Dye, music secretary. Following the business meeting the members and their guests enjoyed a Halloween party.

Rev. and Mrs. C. E. Krumm were dinner guests of Mr. and Mrs. J. H. Koch on Sunday. The local congregation was happy to have their pastor with them again after his recent illness.

Mrs. Spencer and Miss Hazel Spencer, of Krumm, were weekend guests of their daughter, Mrs. Lee Smith and family.

Mr. and Mrs. Andrew Myers, Miss Helen Myers and Mrs. Carl Sanderson of Sebring, Mr. and Mrs. Stewart Orr and children of Columbus were Sunday guests of the Robert Meyers family.

New England Plans To Market Turkeys

Springfield, Mass., Oct. 24.—Progress is being made in all of the New England states in promoting the New England farm marketing program. It was reported at a recent meeting in Springfield of the marketing officials of the New England departments of agriculture. In all of the states of the New England farm marketing label and standard containers are being distributed in increased numbers.

New grades for farm products are being considered in the six states, Massachusetts, Vermont and Rhode Island are planning to establish turkey grades to be in use at the Thanksgiving season this year. Similar grades are under consideration in the other three states. Grading for baby chicks have already been established in Massachusetts and Rhode Island, and will probably be established in the near future in New Hampshire, Vermont and Connecticut.

A study is planned in Maine to determine the factors which affect the price of Maine potatoes. This study will be financed by the Maine Development commission to the extent of \$1,500 for the next two years. Cooperating in the study with the Maine Development Commission will be the state department of agriculture, the agricultural division of the University of Maine, the New England Research Council, and the Bureau of Agricultural Economics at Washington.

READ THE WANT COLUMN

WASHINGTONVILLE

The Pride of the Valley temple, No. 405 Pethian Sisters, held a church service in their hall on Tuesday evening. High score was won by Mrs. Ralph Warner and Elmer Warner and low score went to Mrs. Fred Girard and John Chandle.

Lunch was served. Another party will be held in two weeks. Mr. and Mrs. August Mathey and daughter Helen and Mr. and Mrs. George Leonard and family motored to Wampum on Sunday and spent the day with relatives. Mrs. Emma Shaffer, who has been visiting in the home of her son, returned home with them.

Mrs. Isaac Fieldhouse has been ill the past week.

Mr. and Mrs. Harold Peterson and son and Mrs. Lottie Smith of East Liverpool were Saturday evening callers in the home of Mr. and Mrs. W. L. Weikart.

Mr. and Mrs. Charles Fitzsimmons of Pittsburgh were called this week to the home of his mother, Mrs. Catherine Fitzsimmons, on account of the illness of his sister, Mary, who is seriously ill with pneumonia.

Mr. and Mrs. Henry Richards of Niles, Mrs. Edith Tetlow and Mr. and Mrs. John Conkle of Akron were Sunday visitors in the home of Mr. and Mrs. Curtis Grindle and attended the funeral of Mrs. Emma Culler.

Mr. and Mrs. M. C. Roller of Canton were Sunday callers of Miss Helen Weikart.

Mr. and Mrs. John Sommerville of Garfield and Mrs. Amelia Thompson and son Donald, of Salem, were

visitors Sunday in the home of Mr. and Mrs. C. R. Taylor.

Prayer meeting services will be held weekly at the Methodist church on Thursday evening.

The village council met in regular session on Monday evening. The next meeting will be held on Monday evening, Nov. 4, instead of Tuesday evening, on account of election on Tuesday.

Mrs. Carl Weikart is substituting as teacher for Miss Fitzsimmons this week.

Rev. Angle, Theodore Riddle, Mrs. Don Jackson, Mrs. C. R. Taylor and Mrs. Wm. Bell attended a meeting at Rogers on Tuesday evening pertaining to the conference claimants fund of the Northeast Ohio conference of the Methodist church.

Mrs. Elizabeth Burton of Akron is visiting in the home of her daughter, Mrs. W. L. Weikart and family.

Mr. and Mrs. Loran Weikart and sons, and Mr. and Mrs. Russell Weikart and sons were East Liverpool visitors on Sunday.

Relatives here received word of the death of the infant daughter of Mr. and Mrs. C. H. McCave.

Mr. and Mrs. Robert Mathey and son were Sunday visitors in the home of Mrs. Mary Lowry at Salem.

Chicago—Joe Dowers ditch digger, uncovered a tin box containing 10,000 \$1 bills. Joe immediately resigned his position and rushed to the bank to get bills of larger denominations. The bank pronounced his find "counterfeit" and Joe is back on the job.

"My! you look lovely to-night"

SHE knew the compliment to be true—for the last pimple had vanished.

If you are one of the embarrassed—and men are not exceptions—with skin blemishes that linger, and sometimes leave scars, you must realize that the logical cause may come from the blood.

A clear, smooth, velvety skin bespeaks loveliness. Men admire it. Women praise and secretly envy. Hope, joy, happiness, and even love, may depend on the possession of a clear, unblemished skin.

On the other hand—skin eruptions are outward evidences of the condition within. Authorities state it is an indication that the body's power of resistance to disease and infection is low. Meaning, that there is a deficiency of red - blood - cells.

Without plenty of rich, red blood, there could be no strong, sturdy.

SSS

SSS

SSS

powerful men, or beautiful, healthy women.

When you get your red-blood-cells back to normal, that sluggish, let-down feeling, loss of appetite, boils, pimples, and skin troubles disappear. You get hungry again and you sleep soundly; firm flesh takes the place of that which was once flabby. You feel strong. Your nerves become steady. You are resistant to diseases.

SSS is Nature's own tonic for improving the appetite, building strength, and clearing the body of so-called skin troubles, by increasing the red-cells of the blood.

SSS is made from fresh vegetable drugs and has stood the test of over 100 years.

All Drug Stores sell SSS in two sizes. Ask for the larger size. It is more economical.

Your car will be worth more next year if it's an Eight!

You're out-of-date without an EIGHT!

On every hand you hear people talking Eights. And what is more convincing, you see them buying Eights.

In 43 states, * for the first seven months of this year, new car registrations above \$1000 showed a 94 per cent increase in Eights—an 18 per cent decrease in Sixes. (Five states do not compile registrations by engine types.)

Every fine car in America is an Eight. In fact, 41 per cent of all makes of cars today are Eights. Is it any wonder that thousands intending to buy new Sixes are hesitating?

What is a Six going to bring in next year's trade-in markets? How can it possibly measure up in value with an Eight? Those are the questions that every thinking motorist is asking himself.

For, right now, at the price of a Six, you can buy a brilliant new Studebaker Eight. A champion Studebaker Eight with all the extra power, extra smoothness, extra flexibility and extra value that only an Eight can give.

An Eight built by Studebaker, now enjoying its 77th successful year—now the largest producer of Eight cylinder cars in the world. An Eight by Studebaker, holder of 11 world records of speed and endurance and more American stock car records than all other cars combined.

Choose an Eight from the three great Studebaker lines of Eights now available at new low One-Price prices. Your car will be worth more a year from now if it's an Eight!

*In Ohio, Eights increased 81 per cent while Sixes declined 18 per cent.

Needless Pain!

Nowadays, people take Bayer Aspirin for many little aches and pains, and as often as they encounter any pain.

Why not? It is a proven antidote for pain. It works!

And Bayer Aspirin tablets are utterly harmless. You have the medical profession's word for that; they do not depress the heart.

So, don't let a cold "run its course." Don't wait for a headache to "wear off." Or regard, neuralgia, neuritis, or even rheumatism as something you must endure. Only a physician can cope with the cause of such pain, but you can always turn to Bayer Aspirin for relief.

Bayer Aspirin is always available, and it always helps. Familiarize yourself with its many uses, and avoid a lot of needless suffering.

BAYER ASPIRIN

Aspirin is the trade mark of Bayer Manufacture of Monaceticacidester of Salicylicacid

RELIABLE USED CARS

Buy a used car for your second car

The number of two-car families is growing every day.

Perhaps you're considering a second car yourself.

You don't want to spend too much—yet you don't want a cheap car, either.

Then why not a used car—from a reliable dealer?

Stop in and see us. We probably have just the car you want—at the price you want to pay.

And if you buy a used car here you depend on it. The word of a quick dealer stands behind it.

GREENFORD

Several people from Greenford attended the annual banquet of the Mahoning County Farm Bureau held at Canfield last Friday. Mr. and Mrs. John Kyser of Grand Rapids, Mich., spent a few days last week with his sister, Mrs. Mary Kenrich and family. There was a large attendance at the school fair held Friday evening at the school house. Mrs. W. R. Calvin and daughters,

Ruth and Maxine spent Thursday with Mr. and Mrs. J. U. Walter. Mrs. Eleanor Salts of Peoria, Ill., is visiting at the home of her sister, Miss John Behrns and family. R. I. Hendricks and family moved Saturday into the S. E. Weikart house. Dr. and Mrs. P. H. Leimbach and family spent Wednesday with his parents, Mr. and Mrs. A. H. Leimbach, Vermillion. Mr. and Mrs. Johnston of Youngstown spent Sunday with Mr. and Mrs. Charles Wilson. Mr. and Mrs. Frank Slagle and family and Mr. and Mrs. Josiah Blough of Johnstown, Pa., spent the week end with Mrs. Lottie Slagle and family. Miss Lottie Zimmerman spent a few days last week with relatives in Salem. Mr. and Mrs. W. A. Rose and Mr. and Mrs. Walter Erkstein of Kimbolton, spent Saturday afternoon and night with Mr. and Mrs. J. U. Walter. They were all guests for dinner at the home of Mr. and Mrs. W. R. Calvin, Locust Grove. Mr. and Mrs. L. P. Rayston and

family and Mr. and Mrs. Oliver Fink of Youngstown, Mr. and Mrs. Perry Toot and family of Alliance; Mr. and Mrs. Curtis Toot of Salem and Mr. and Mrs. Oscar Toot and family of Albany were guests Sunday at the home of Mr. and Mrs. Charles Wilson. Arlene Calvin spent the week end with Bertha Rhodes at Gettysburg.

COLDS MAY DEVELOP INTO PNEUMONIA

Coughs from colds may lead to serious trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a medical discovery with two-fold action: it soothes and heals the inflamed membrane and inhibits germ growth.

Of all known drugs creosote is recognized by high medical authorities as one of the greatest healing agencies for coughs from colds and bronchial irritations. Creomulsion contains, in addition to creosote, other healing

elements which soothe and heal the inflamed membrane and stop the irritation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs. Creomulsion is guaranteed satisfactory in the treatment of coughs from colds, bronchitis and minor forms of bronchial irritations, and is excellent for building up the system after colds or flu. Money refunded if not relieved after taking according to directions. Ask your druggist. (adv.)

Reichart Triumphs Again! SECURES THE EXCLUSIVE AGENCY "for" FAMOUS ONE MINUTE WASHER

\$79.50

Yes, madam, you can bank on the Reichart organization to accomplish the unusual! Seven leading manufacturers of washing machines competed for the business of the Reichart chain of stores! Each submitted their plans, product and prices! Our merchandising committee—comparing each make with the six others—chose the "ONE MINUTE"! It overshadowed in workmanship and value all the others! None could compare with it in any way—and we sell it with our hearty endorsement!

Yes!--Easy Payments

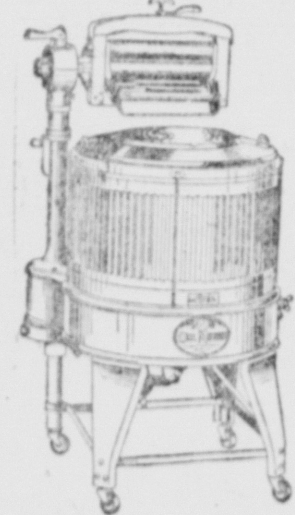

1,974,863 Women in America Are Enthusiastic "One Minute" Boosters

Almost two million housewives say that it washes clothes,—quicker—better—and with less strain on the garments! Their word helped us decide—and their word should be your guarantee of satisfaction! In the past year alone, these "One Minute" washers have served OVER ONE HUNDRED MILLION WASHES! That's service—and that's satisfaction! From the daintiest of handkerchiefs to the bulkiest blankets, the "One Minute" washer does the job—quickly and perfectly.

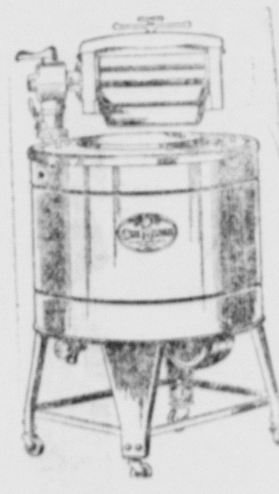

A Small Deposit Delivers—Take 52 Weeks for Balance!

There's No Washer Built That Can Compare with This at \$79.50

The price itself is a sensation! In order to bring the price down to that level, the Reichart chain of stores had to place a gigantic order with the manufacturers! The shipments filled several car-loads, of which this city's share is 200 washers! Come in—see it demonstrated—see its many, many features—its wonderful construction—its fine, easy washing motion—its patented principles that makes the clear soapy water seep through the clothes, restoring their beauty and richness of color.

Model 60 \$99.50

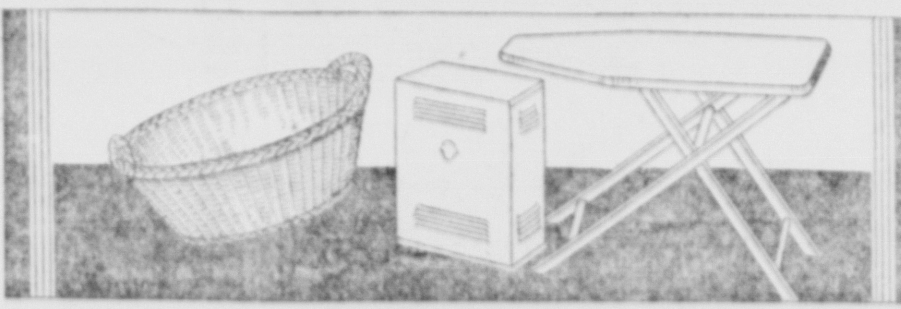

MODEL \$129.50 29A

The Bergman Model \$79.50

THIS WASH DAY OUTFIT

OF THREE NEEDED ARTICLES

FREE

to introduce the new "One Minute." For the first 100 women who buy, we will present the Hamper, Clothes Basket and Ironing Board, with our compliments.

See the Improved New Tub!—Rust-resisting, non-corrosive and long-lasting. Heavily nicked on the inside and beautifully lacquered on the outside. It is a shining example of washing efficiency. The latest wringer is part of the equipment. It is built of pressed steel, and is rust-proof. It has a fast-acting, safety release, and best quality, semi-balloon rolls. The large tub opening makes this the easiest washer on the market to load and unload. No trouble at all!
